

Tak film brand has started working with the aim of producing high quality and diverse PVC coatings as the second phase of Yekta Film Tabriz industrial group in 2021 .It should be noted that high-glass and vacuum membrane covers are among the other products of this collection, which are produced with excellent quality and variety.The main goal of the managers of this production excellence complex is to produce and market products at the level of quality and international standards by using the latest technologies and the most advanced machines in the world, in order to meet the needs of domestic customers and satisfy them and dominate foreign markets, especially the Middle East market. Because Takfilm brand products have better quality compared to similar samples in the international market and can compete with other products in the market . Also, this industrial group with high investment and attention in quality control, research and development and attracting specialists and experts in this field and after-sales services plays a significant role in the development of the printing and decoration industry of the country.
